

Surface Transportation Board, DOT

§1152.30

the railroad's notice of consummation shall be filed with the Secretary of the Board. In addition, the notice of consummation shall be sent to the State Public Service Commission (or equivalent agency) of every state through which the line passes. If, however, any legal or regulatory barrier to consummation exists at the end of the 1-year time period, the notice of consummation must be filed not later than 60 days after satisfaction, expiration or removal of the legal or regulatory barrier. For good cause shown, a railroad may file a request for an extension of time to file a notice so long as it does so sufficiently in advance of the expiration of the deadline for notifying the Board of consummation to allow for timely processing.

(f)(1) When a trail user intends to terminate trail use and another person intends to become a trail user by assuming financial responsibility for the right-of-way, then the existing and future trail users shall file, jointly:

(i) A copy of the extant CITU or NITU; and

(ii) A Statement of Willingness to Assume Financial Responsibility by the new trail user.

(2) The parties shall indicate the date on which responsibility for the right-of-way is to transfer to the new trail user. The Board will reopen the abandonment or exemption proceeding, vacate the existing NITU or CITU; and issue an appropriate replacement NITU or CITU to the new trail user.

(g) In proceedings where a timely trail use statement is filed, but due to either the railroad's indication of its unwillingness to negotiate interim trail use agreement, or its failure to timely notify the Board of its willingness to negotiate, a decision authorizing abandonment or an exemption notice or decision is issued instead of a CITU or NITU, and subsequently the railroad and trail use proponent nevertheless determine to negotiate an interim trail use agreement under the Trails Act, then the railroad and trail use proponent must file a joint pleading requesting that an appropriate CITU or NITU be issued. If the abandonment has not been consummated, the Board will reopen the proceeding, vacate the outstanding decision or no-

tice (or portion thereof), and issue an appropriate CITU or NITU that will permit the parties to negotiate for a period agreed to by the parties in their joint filing, but not to exceed 180 days, at the end of which, the CITU or NITU will convert into a decision or notice permitting abandonment.

[61 FR 67883, Dec. 24, 1996, as amended at 62 FR 34670, June 27, 1997; 64 FR 53268, Oct. 1, 1999]

Subpart D—Standards for Determining Costs, Revenues, and Return on Value

§1152.30 General.

(a) *Contents of subpart.* (1) 49 U.S.C. 10904 directs the Board to determine the extent to which the avoidable costs of providing rail service plus a reasonable return on the value of the line exceed the revenues attributable to the line. This subpart contains the methodology for such determinations and the standards necessary for application of those terms in the context of a particular proceeding. Such data will be used in reaching the Board's findings on the merits of an abandonment or discontinuance proceeding and in making the necessary financial assistance determinations.

(2) This subpart also sets forth a method by which the carrier may establish its Forecast Year estimates and Estimated Subsidy Payment to be included in its application (§1152.22(d) of this part). Furthermore, an offeror of financial assistance may use this method to formulate a subsidy offer and/or Proposed Subsidy Payment under 49 U.S.C. 10904 and §1152.27 of subpart C of this part.

(b) *Data collection.* The owning or operating carrier shall establish a system to collect at branch level the data necessary to compute the base year data and the final subsidy payment. The collection and compilation of such data shall be in accordance with the Branch Line Accounting System (49 CFR part 1201).

(c) *Final payment of financial assistance.* (1) When a financial assistance agreement is concluded, the final payment will be adjusted to reflect the actual revenues derived, avoidable costs

§1152.31

incurred, and value of the properties used in the subsidy year.

(2) Where an adjustment results in an increase in the Estimated Subsidy Payment upon which the financial assistance agreement is based, the amount of such increase is limited to 15 percent of the estimated payment. However, if the railroad notifies the subsidizer that the estimate will be exceeded by more than 15 percent in one of the Financial Status Reports (§1152.37) issued during the first 10 months of the subsidy year or the increase results from an expense preapproved by the subsidizer, the adjusted amount shall be included in the final payment.

§1152.31 Revenue and income attributable to branch lines.

The revenue attributable to the rail properties is the total of the revenues assigned to the branch in accordance with this section, plus any subsidy payments that would cease upon discontinuance of service on the branch, for the subsidy year. The revenues assigned shall be derived from the following accounts:

(a) *Account 101—Freight.* The revenue assigned under this account shall be the actual revenues, including transit revenues, accruing to the railroad, derived from waybills and other source documents, for all traffic that:

(1) Originates and terminates on the branch;

(2) Originates or terminates on the branch and is handled off the branch on the system but not on another carrier; and

(3) Originates or terminates on the branch and is handled on another carrier. All traffic that is received or forwarded through interchange at a point on the branch, including ferry operations, shall be considered as originating or terminating on the branch. The revenues of all other bridge or overhead traffic that will not be retained by the carrier shall be attributed to the branch on the ratio of miles moved on the branch to miles moved on the system, provided, however, that the parties may agree on a mutually acceptable usage charge for bridge traffic in lieu of the mileage apportionment.

49 CFR Ch. X (10–1–01 Edition)

(b) *Account 104—Switching; Account 105—Water transfers; Account 106—Demurrage; Account 110—Incidental; Account 121—Joint Facility-Credit; Account 122—Joint Facility-Debt; Account 506—Revenues from Properties Used in Other Than Carrier Operations; Account 510—Miscellaneous Rent Income; Account 519—Miscellaneous Income.* The revenues assigned under these accounts shall be the actual revenues accruing to the railroad that are directly attributable to the branch.

(c) *Chart for revenue accounts.*

Revenue account title	Account No.
Freight	101
Switching	104
Water transfers	105
Demurrage	106
Incidental	110
Joint facility-credit	121
Joint facility-debt	122
Revenues from property used in other than carrier operations, less expenses.	506, 534
Miscellaneous rent income	510
Miscellaneous income	519

§1152.32 Calculation of avoidable costs.

This section defines: Which cost elements are eligible for inclusion in the calculation of avoidable costs; the conditions under which certain cost elements become eligible for inclusion; and the basis of apportioning those cost elements which are not assigned to the branch on an actual expense basis. The avoidable costs of providing freight service on a branch shall be the total of the costs assigned to the branch in accordance with this section. The avoidable costs of providing freight service on a branch shall be just and reasonable, and shall not exceed those necessary for an honest and efficient operation. Those expenses apportioned under this section shall be derived from the latest Form R-1 Annual Report for Class I railroads filed with the Board prior to the conclusion of the subsidy year, and company records for all non-Class I railroads, and assigned to the branch according to the procedures set forth in §1152.33 of these regulations. When the term “Actual” is specified as the basis for assigning an expense, it shall mean that the only
